## DUAL ANGLE SMITH

**CF-3755**

### FEATURES

During the assembly process, the Dual Angle Smith can be configured either in a vertical orientation or with a 7-degree angle.

The CF-3755 employs TPU covered rack outs for silent racking and protection of bar.

During assembly, the columns of the CF3755 can be flipped to position the rackouts facing rearward, offering four setup options. This flexibility allows customers to choose their preferred orientation for bar engagement/disengagement with the rackouts.

The safety stop mechanism has been streamlined for enhanced simplicity. Users can swivel it outward or inward, slide it vertically to the desired position, and then swivel it back into place on top of the rackout.

### SPECS

- **PRODUCT DIMENSIONS (L X W X H)**  
52" X 88" X 89" (132 cm X 223 cm X 226 cm)
- **PRODUCT WEIGHT**  
610 lbs (277 kg)
- **MAX WEIGHT STORAGE**  
1350 lbs (612 kg)
- **MAX EXERCISE WEIGHT**  
540 lbs (245kg)
- **OLYMPIC BAR WEIGHT**  
25 lbs (11kg)
