

American Barbell Elite Power Bar OB20-SS-IPF

The American Barbell Elite Power Bar features a shaft crafted from precision-grade stainless steel. To guarantee quality, the strength of the shaft undergoes rigorous testing with each shipment of raw material, ensuring a consistent 190,000 PSI tensile strength. This meticulous attention to detail guarantees dependable, long-lasting performance for daily use. The selected steel grade of our Power Bars exhibits minimal flex, making them perfectly suited for a range of maximum load lifts.

Stainless steel offers superior corrosion resistance, with the added benefit of easy cleaning and repairability without surface damage. The knurling set in stainless steel provides a unique tactile experience unmatched by other finishes.

Our 20KG model boasts a shaft diameter of 29MM, making it an excellent choice for those in search of a high-precision, durable barbell designed to endure the test of time.

- Available Sizes: 20KG
- Diameter: 29MM
- Length: 2200MM
- Center knurl: Yes
- Knurl Marks: Power
- Loadable Sleeve Length: 16.338"
- Tensile Strength: 190K
- System: Bushing
- Shaft: Stainless Steel
- Sleeve Finish: Hard chrome
- Application: Powerlifting
- Manufactured: Made in USA
- Warranty: Limited Lifetime
- Patent No: US D795,971 S
