Color KG Urethane Pro Series Plates BPU2-XXKGBL-PR

American Barbell sets the industry standard as the pioneering manufacturer of urethane bumper plates globally, renowned for unparalleled durability and performance. These plates are celebrated for their exceptional resilience and minimal bounce, positioning them as a premier choice for serious athletes and dedicated fitness enthusiasts.

Meticulously crafted from premium German urethane, these bumper plates not only captivate with their vibrant appearance but are also constructed for lasting durability. With over 100,000 units sold, they have consistently met the strenuous demands of diverse environments including the military, Division 1 training facilities, schools, and Olympic training centers, achieving an impeccable record without any failures.

These plates feature custom color-molded markings, adding to their sleek, professional aesthetics while ensuring sustained performance. The 140MM hard chrome hub is ingeniously designed with a one-piece, chamfered structure, enabling smooth loading onto the bar and reducing wear on bar sleeves. Perfect for both commercial gym and home fitness settings, American Barbell's urethane bumper plates represent the pinnacle of quality in strength training equipment, tailored for those who seek the very best.
